Gem Surfaces®

Introduction

Introducing Gem Surfaces®

Surfaces suitable for lining palaces, castles, museums, luxury hotels, or those seeking the most exotic precious stone slabs available.

Offering gemstone slabs of the highest quality. Our stunning precious stone slabs are hand-hewn from the finest gem rough, used traditionally only in jewelry. Because these fine gems don't naturally lend themselves to standard slab dimensions, we have developed a special technique that lets us piece them together into a durable mosaic like no other.

We are the mine owner, manufacturer, and distributor of all our Gem Surfaces. In addition to slabs, we offer tiles and any cut-to-fit application - including furniture and vanities. Most custom orders can be completed within 2-3 weeks. We ship all orders, including ones custom-cut to smaller than full slab dimensions, in specially designed crates. Slabs are stocked in our facility in Tucson AZ., and at our factory in Guangzhou, China.

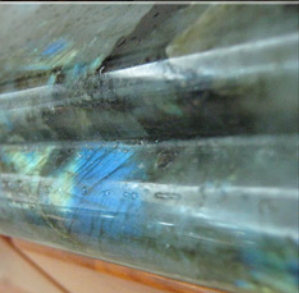

Owing to the fact we own the mine for each of our materials, we are vertically integrated from quarry site to the finished slabs, or fabricated custom cut-to-fit installation. We eliminate all the layers in between, and pass that savings onto you! Other manufacturers of similar product cannot make this claim.

Gem Surfaces.

Backing Option - Granite Backing

All Gem Surfaces are available in this pattern. (below: Petrified Wood 1 cm, Granite 2 cm).

With the proper edging (e.g. rabbet, or miter) the granite backing is hidden. Durable and more economical.

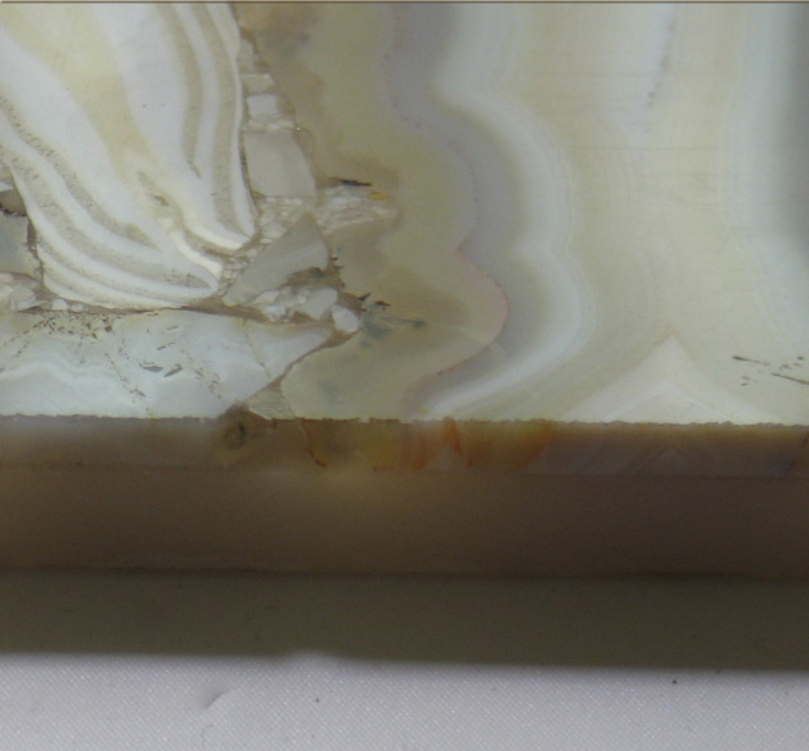

Gem Surfaces®

Backing Option - Translucent Backing

Several Gem Surfaces are available in our translucent backing. (below left: Agate gem layer 1 cm, Engineered Resin 1 cm - 2 cm total thickness) With the proper edging (ex: rabbet, or miter) the resin backing is hidden. Ideal for Back Lit affect (below right).

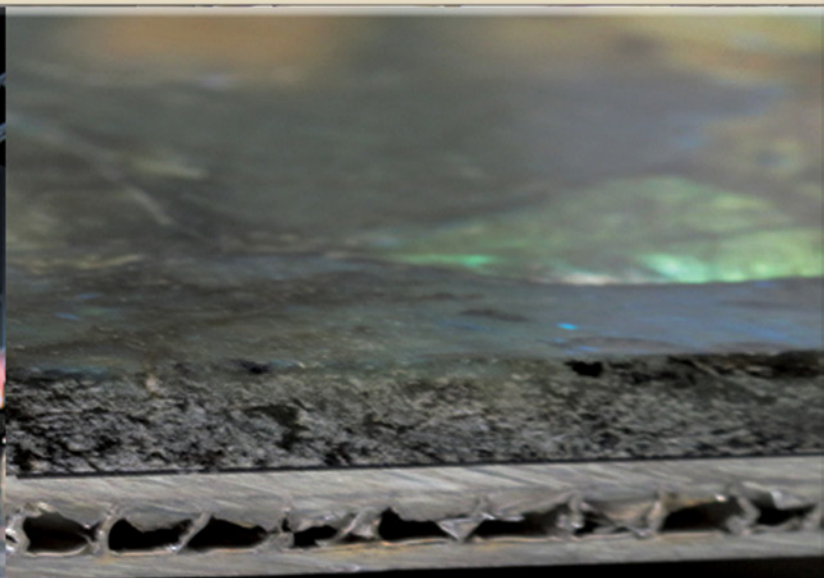

Gem Surfaces.®

Backing Option - Ultra Light-Weight Aluminium Backing

All Gem Surfaces are offered on this ultra light-weight backing. Applications include walls, ceilings, panels, yachts, airplanes and elevators or anyplace where weight is a factor. This slab weighs 75% less than granite of equivalent size!

Below you will see fancy edging can be achieved using laminated gemstone layering with different backing options.

Fancy Edge Option: Petrified Wood

- Miter Edge
- Ogee 2

Translucent Backing Option

- Miter Edge with a 1/2 Bullnose (back-lit), top.

Gem Surfaces®

Custom Cut-to-Fit

Gem Surfaces® was created through imagination and innovation. We understand that many projects require unique specifications. As such, we offer our Gem Surfaces®, for your particular project, custom cut-to-fit. The risks of fabricator accidents, waste, and labor are virtually eliminated. All that is required is gluing the seams, and risk-free.

Our custom cut-to-fit fees will be lower than yours. Our bridge saws, and water jet machines can handle any concepts you might conceive.
