Words from the President

Robert Grant, President

Factory in Antananarivo, Madagascar

Labradorite Mine in Ampanihy, Madagascar

Labradorite Block Rough Mine in Ampanihy, Madagascar

It is with great pleasure that I and NMG - Norcross Madagascar Group Brands are presenting to you our Gem Decor® gift catalog.

All gift items are made from certified gemstones, all mined from our own gem mines in Madagascar and all are hand carved in our own factory also in Madagascar. Many years of discovery and development of the mines and many more years in training the craftsmen have gone into the development of these products. Experience the beauty and joy of our gemstone creations which are hand crafted for you from the enchanted land of Madagascar.

So, enjoy and for additional information, don't hesitate to visit us on our web site www.gem-decor.com or to call toll free at 1-888-888-9057

Other NMG Brands:

Madagascar Minerals®

In the mineral trade, Madagascar Minerals® has been a leading supplier of gem rough and products from Madagascar to the industry. Hundreds of tons per year are sold to jewelry manufacturers around the world.

Additionally Madagascar Minerals® is known for some of the finest auction and museum-grade show pieces of natural gems, minerals and fossils.

Visit our website www.madagascarminerals.com

Gem Gardens®

Offers rough gemstone and Bolders for the landscaping. The vivid colors of gemstones offer an attractive accent in landscaping designs.

Gem Surfaces®

Imagine the possibility of designing in gemstones; your high-end luxury design needs have been answered. Gem Surfaces® offers semi-finished gemstone slabs suitable for any application of marble and granite like counter tops, vanities, walls, ceilings, floors and furniture. Custom prefabrication is also possible.

Please visit our website www.gemsurfaces.com

36 Ammonite Fossils

These Ammonite Fossils are as beautiful as they are rare. Ammonite pricing is not only based on size and quality, but also on availability and is therefore subject to changes solely dependant on market values. Most people don't realize that Ammonite (Mesozoic cephalopod), is a close relative to the squid. These ammonite fossils first appeared in the Devonian, and went extinct with the Dinosaurs toward the end of the Cretaceous Period (65 million years ago).

Find here all kinds of Ammonites from the famous great island Madagascar:

Cut and Polished Ammonites, Natural Whole White Ammonites, Whole Polished Ammonites, Spike Shell Ammonites and Ammonite Jewelry Items.

Ammonite Jewelry Items

These are easily among the finest specimens in the world. Enjoy the uniqueness of owning a Jewelry quality fossil!
We have 2 grades of Ammonite Jewelry: the first grade AAA and the second grade AA.
The diameters of Ammonites Jewelry range from 1-3cm (< 1"), 3-5cm (1-2") and 5-7cm (2-3").

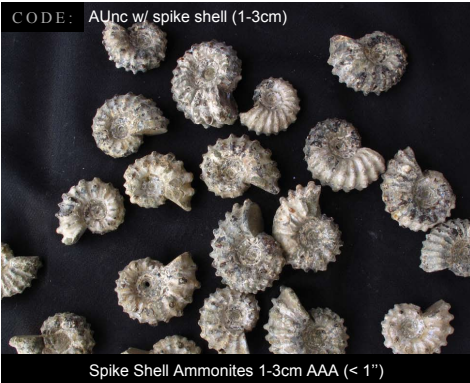

Spike Shell Ammonites Jewelry

Jewelry sizes: 1-3cm (< 1"), 3-5cm (1-2") and 5-7cm (2-3")

You can purchase these Spike Shell Ammonites Jewelry per pound: weight of 1 piece, 1lb, 5lbs, 10lbs, 20lbs, 40lbs, 80lbs and more.
Discount scaled to the volume purchased.
